FRIDAY JULY 12, 19:30 PM

LECTURE: INTEGRATION OF THE INNER IN DAILY LIFE

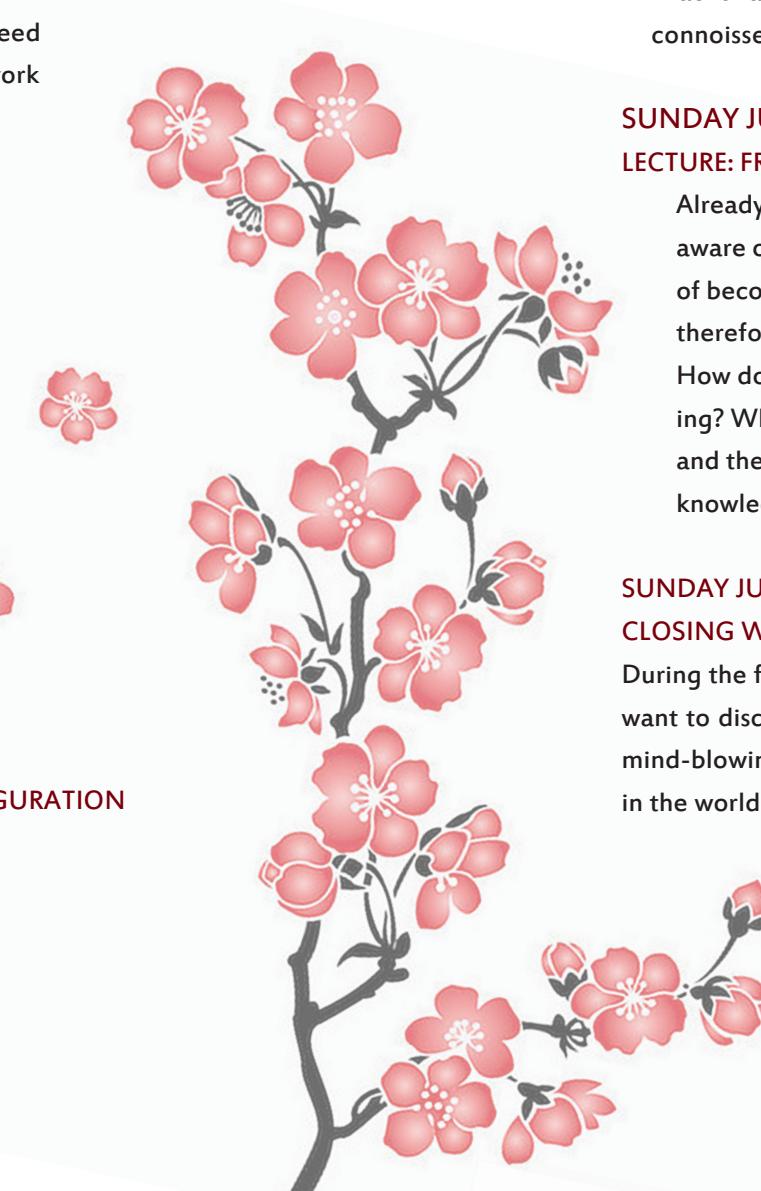

Everyday life is mostly about the interaction with our environment, how we respond to others and how others respond to us. With our body and senses we are part of the world wide web. We feed it and it feeds us. How does this law of cause and effect work in our life? What is the effect on our personality? Do we recognize this with body, our mind and/or our soul?

How do we become aware of the eternal ?

FRIDAY JULY 12, 21:00 PM

TEMPLE VISIT: THE SYMBOLIC OF THE TEMPLE

The temples of the Golden Rosycross are white, silent and spacious. They are not just places of meeting, without anything else. They are places of light and power. We would like you to experience something hereof. The reading will be about: the temple as a sanctuary, the temple as a working place. You are most welcome in the heart of the J. van Rijckenborg.. centre.

SATURDAY JULY 13, 10:30 AM

TEMPLE SERVICE: FROM REINCARNATION TO TRANSFIGURATION

The soul is a powerful instrument. It has been cherished by wisdom schools of all centuries. And what does the soul mean for the Rosicrucians? It is everything! It is the mediator between spirit and matter. It enables us to become one with God again.

SATURDAY JULY 13, AS FROM 14:00 PM

SUNDAY JULY 14, 10:30 AM

LECTURE: FROM SELF-KNOWLEDGE TO A NEW ATTITUDE OF LIFE

Already in ancient times pupils of mystery schools were made aware of the great importance of self-knowledge on the path of becoming a true human being. That insight is universal and therefore always propagated in authentic spiritual movements. How do you prevent yourself from getting stuck in navel gazing? Why does Helena Blavatsky distinguish the self, the Self and the SELF? What can you do to let the source of liberating knowledge, love and decisiveness flow within yourself?

SUNDAY JULY 14, 14:00 PM

CLOSING WORD IN THE TEMPLE: FROM DESIRE TO FULFILMENT

During the final meeting in the Temple of the Golden Rosycross we want to discuss the concept of love. Somehow we all feel: love is a mind-blowing force. As a silent never-failing stream love is present in the world. Its power is superhuman. Love opens everyone's heart, it feeds us and heals what was broken. It puts everything in a different light and shows us new possibilities. In all things, it is always the same. It is unconditional and is present within every person and in every situation. What is the essence of this unimaginable power? And which key is love giving us, for a fulfilling, happy life?
